

Calmology™

(The Art of Calming)

Indications:

Specially formulated for:

- Managing the horse's mood in any situational stress and anxiety associated with TRAINING, EVENT or, COMPETITION.
- Recovery of the Muscular and Nervous system functions, and Gastrointestinal track to achieve horse's optimum performance.
- Aiding to FOCUS, RELAX and CREATE GASTRIC BUFFER in nervous horses.

Calmology™ paste is a natural calming supplement used in nervous horses before training, competitions, and transportation.

The latest nutraceutical science behind Calmology™ formula and using a series of special powerful keys, natural and effective USP grade ingredients in highest purity %99.9 by correct composition ratio, creates a state-of-art formula to reach a real calming product (not sedation) with efficient delivery in body that will help horses to FOCUS, RELAX and CREATE GASTRIC BUFFER to achieve their optimum performance. So it is called "The art of Calming".

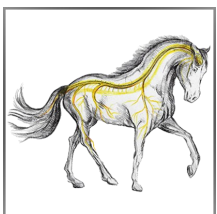

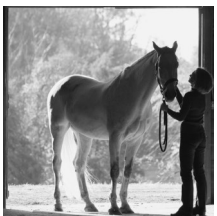

Calmology™ as a real calming supplement, does not impair horses' brain function, as a result it may not make horses drowsy or hinder their performances which makes it perfect for horses' training.

Calmology™ paste is a natural show-safe product and contains no drug or prohibited substances. Horses would love the taste.

Why Calmology™ is UNIQUE:

- It's a Calming product and NOT a sedative product.
- It keeps the muscle tone.
- It increases your horses general responsiveness.
- It's made of ingredients naturally available in horses body.
- It has double the usual strength.
- It's easy to swallow and simply serves your horse.
- It's manufactured at a GMP certified facility.
