

ElectroPower Plus™

(Final Solution)

Indications:

Specially formulated for:

- Replaces electrolytes and other body essentials depleted in sweat through exercise, stress, heat and/or humidity.
- Helps your horse's body maintain the fluid levels necessary for healthy normal function.
- Concentrated paste encourages drinking and re-hydration.
- Helps restore natural balances.
- Restoration of Body-Energy-Reserves during exercise.

ElectroPower Plus™ is a fast acting equine supplement, for restoring and replacement of lost electrolytes and energy and other body essentials lost from horses body in sweat during exercise, competitions, dehydration, diarrhea, convalescences, loss appetite etc.

Well over half of the horses' weight is made up of body fluids. Electrolytes help the horses' body maintain normal fluid levels and organ function. A major challenge is to maintain Fluid and Electrolyte Balance (FEB). ElectroPower plus™ is formulated with the key ingredients to maintain the right FEB in horses' body. So it is called "final Solution".

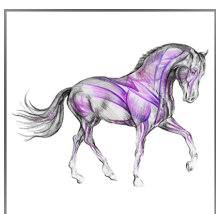

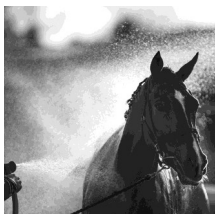

ElectroPower Plus™ is a Show Safe product, and contains No Drugs.

ElectroPower Plus™ is ideal when the horse needs speedy electrolyte replenishment following exercise, show, trail ride, or when hot and humid weather creates stressful conditions.

Why ElectroPower Plus™ is UNIQUE:

- It's a DUAL ACTION supplement, provides both ELECTROLYTES and ENERGY at the same time.
- It's fast absorbing.
- It's made of ingredients naturally available in horses body.
- It's manufactured at a GMP certified facility.

Active Ingredient:

Creatine Monohydrate, L-Carnitine, Glycine, Tryptophan, Maltodextrin, Fructose, Glucose, Vitamin B12, Calcium, Chloride, Sodium, Potassium, Magnesium, Cobalt, and Banana flavor.
